File No: DEC. 17, 1903

EARLY AERONAUT

Moya Lear Defendant.

CONFESSION

THE UNDERSIGNED accused, in the presence of two competent FAMOUS witnesses, does on this day confess as follows:

THAT YOU did succumb to Plaintiff's begging and certain acts against your protests concerning shyness, lifestyle of seclusion, irritating inquisitors, photographers, writers, etc., although these acts which you did cause to be done or did do were lawful, grueling, tiresome, annoying, while most interesting, educational, emotion alleviating, yet extremely important, gracious, exposing your inner hidden famous and great inhibitions which have caused now to be on video/ audio tapes which shall be of invaluable knowledge and interest to all future generations interested in aviation history and further,

THAT THE UNDERSIGNED has not yet fully expressed the great opportunity, pleasure and thrilling feelings as experienced while listening to your uninhibited fearless exploits in helping build aviation to our future NEW FRONTIERS in the skies, and

THAT THE UNDERSIGNED does hereby deeply confess that words cannot express such sincere fulfilling exhilarating appreciation you are responsible for.
